OF COUNSEL:

Assistant Attorney General  
Office of Legal Policy

ATTN: Office of Information and Privacy

Dear Sir:

This is an appeal from the denials in the response to my Freedom of Information-Privacy Acts request directed to the Federal Bureau of Investigation in Boston, Massachusetts.

Attached please find a copy of the following documents forwarded to me by the FBI in Boston pursuant to my request.

- A. Letter of November 20, 1985 to me signed by Edward W. Ludemann, Assistant Special Agent in Charge, in response to my FOIA request.
- B. Letter of November 12, 1985 to William F. Weld, U.S. Attorney in Boston, from James W. Greenleaf, Special Agent in Charge, re: Gerry Armstrong - Impersonation.
- C. Letter of 10/25/85 from me to agent Timothy Leonard re: alleged impersonation.
- D. Letter of 10/23/85 from me to FBI Boston requesting documents under FOIA.
- E. Declaration of Gerald Armstrong dated 10/23/85 relating to alleged incident of impersonation.
- F. FD-302 FBI report dated 11/4/85 prepared following an interview of me by FBI agent Timothy Leonard on 10/23/85.
- G. Complaint form dated 10/17/85 referencing a complaint filed with the FBI in Boston by persons to me as yet unknown.

H. Letter of 12/9/85 from me to FBI Boston correcting errors in the 11/4/85 FD-302 report.

The information which has been denied and which I am appealing to have provided to me is as follows:

1. The names of the individuals who appeared at the Boston FBI office on 10/17/85 and provided the FBI with an affidavit which accused me of impersonation of an FBI agent (Ref. G attached).
2. A copy of the affidavit provided by these individuals to the FBI on 10/17/85 (Ref. G attached).
3. A copy of the letter dated 10/22/85 (Ref. item 2 of B attached).
4. A copy of the letter dated 11/6/85 (Ref. item 5 of B attached).
5. Any additional correspondence between the complainant or other members of Scientology and the FBI regarding this operation against me.
6. Any other reports, investigation results or conclusions by the FBI relating to this alleged impersonation/frameup.

I am appealing because I believe it is my right to know who my accusers are, and it is an injustice for them to remain unknown to me, and for correspondence and reports about me to remain unanswered and uncorrected in Federal files.

It is already acknowledged that the complainant and the persons acting with him or her are agents of Scientology. I have been attacked by Scientology or persons acting for the Organization since I left in 1981. I have been assaulted, driven into and attempts were made to involve me in a highway accident. I have been libeled and slandered. The Organization, using private investigators and intelligence operatives, has attempted to destroy my reputation, livelihood and life. This "impersonation" incident is clearly only another Scientology operation. It seems to me to be patently unjust that this organization should be able to subject me to more intimidation

and harassment via Federal agencies and yet have agents remain unknown and the reports filed about me go unrebutted.

I am also enclosing with this letter and attachments a copy of the decision in the lawsuit the Organization brought against me in 1982. The trial judge found the same facts I have stated in the preceding paragraph.

Thank you for your anticipated assistance.

Very truly yours,

Gerry Armstrong

  - (D) Reveal the identity of an individual who has furnished information to the FBI under confidential circumstances or reveal information furnished only by such a person and not apparently known to the public or otherwise accessible to the FBI by overt means.

If you desire, you may submit an appeal from any denial contained

Dear Mr. Leonard:

Please find herewith a copy of a declaration I wrote following our meeting of October 23, 1985 and on FOIA request made to your office the same date.

Also please find herewith my statement of what I was doing at the time of the alleged incident of October 13, 1985. I request that no one other than officials in the FBI, and specifically not Scientology, whoever filed the complaint against me, nor anyone acting as their agent, be given this statement.

The reason is simple. One of the harassment techniques of Scientology/Hubbard is to depose anyone who becomes involved, even in the most peripheral way, with me in any of the "legal" affairs Scientology or Hubbard create. The depositions are used to upset, harass and intimidate these people and thus make them reluctant to associate with me. In this case, it would create an uncomfortable situation where I live.

I do not believe these people would object to talking to you to confirm what I have stated, if you determine that this matter requires further investigation. However, they are reluctant to become targets of Scientology operations to get to me.

Please call me if you have any questions.

Very truly yours,

  
Gerald Armstrong

2 "I'm an FBI agent. I know all about your organization.  
3 Ron is hiding out even from his own people. We're going  
4 to wipe you out within two years."

5  
6 D. My accuser returned to the Boston organization  
7 and with the assistance of his seniors identified me  
8 as the individual to whom he had "spoken."

9  
10 E. My accuser stated that I was with another individual.  
11 Mr. Leonard did not have a physical description of this  
12 individual, and did not know if the individual was male  
13 or female.

14  
15 3. I have never impersonated, nor identified myself  
16 as an FBI agent or any other government official or employee  
17 at any time. I have never led anyone to believe by any act on  
18 my part that I was an FBI agent or a government official or  
19 employee.

20  
21 4. On October 13, 1985, at 2:00 p.m., I was at my  
22 residence, writing. I did not travel anywhere all day.

23  
24 5. I was not at the location described to me by Mr.  
25 Leonard on October 13. In fact, I have never been to that  
26 location in Boston, nor anywhere close to that location.

27  
28 6. I have never talked to, since my arrival in Boston,

1 anyone whom I knew to be, or identified himself or herself as,  
2 a Scientologist. Since coming to Boston I have never to my  
3 knowledge been approached by a Scientology "body router."  
4

5 7. The criminal complaint by the Scientology  
6 organization is completely false. Any "evidence" is  
7 "manufactured" pursuant to L. Ron Hubbard's policy attached  
8 hereto as Exhibit A, which states:

9 "If attacked on some vulnerable point by anyone  
10 or anything or any organization, always find or  
11 manufacture enough threat against them to cause  
12 them to sue for peace."

16 8. This is not the first time Hubbard or Scientology  
17 has sought to bring phony charges against me. They attempted the  
18 same using the Los Angeles Police Department in 1983 during the  
19 pendency of my civil lawsuit in the Los Angeles Superior Court.  
20

21 I declare under the penalty of perjury under the laws

HCO POLICY LETTER OF 15 AUGUST 1960  
Re-issued from Sthil

Assn Secs  
HCO Secs

DEPT OF GOVT AFFAIRS

(Cancels any previous directions to set up a Special Zone Dept)  
(This Policy Letter is mandatory all Central Organizations)

There shall be established on a board level and outside the structure of the Central Org and HCO but under the board of HASI Ltd, a new department to be called "The Department of Government Affairs".

More and more, as governments disintegrate under the threat of atomic war and communism, central organizations have had to give high executive time to governmental affairs to the great loss of the organizations themselves. The enturbulence entered into Scientology activities by legal matters, tax matters, and matters of assisting governments to maintain stability, has sapped our time and fixed our attention to our own loss.

Now to remedy this situation, I wish to contain and cordon, in a military sense, this incursion and to prohibit utterly and completely such entrance (of these matters or our own project for governments) into Central Org or HCO comm lines. In other words, Central Orgs and HCOs are run by, for and as Scientology service and activity units and the special Department of Government Affairs shall handle other matters and specifically deny such non-Scientology matters entrance into organizational comm lines.

The Department of Government Affairs shall be headed and directed with a minimum of personnel and shall not be able to call upon the personnel of the Central Org or HCO for further assistance than the relay of communications.

The Director of Government Affairs shall be a fully qualified person of good judgement subject to control of the Board of Directors and shall be subject to the advices and directions of the Board and the HCO and Assn Secretary. Only Washington and South Africa are excluded from supervision of the Dept by the Assn Sec, Org Sec and HCO Sec. In all other offices the Director of Government Affairs shall be subordinate to the Assn Sec and HCO Sec.

Under this department comes the corporation's solicitors, attorneys, chartered accountants and any attorney or accountant hired directly by the corporation for outside legal or tax or filing purposes.

The allotment and issue of shares comes under this department, but the actual invoicing and banking shall be done as always by the Dept of Accounts or, for HCO, by the HCO Secretary.

All contracts, filings with the government, all tax reports and their preparation, corporation minutes, annual meetings, legal papers, suits against and by the corporation, whether HASI Ltd or HCO Ltd, all legal investigatory work and detectives, all contacts with government agents, bureaus and departments, all assistance to governments, messages to governments, handling answers from governments or courts shall be cared for by the Department, whether to advance or protect Scientology or its corporations by government or legal channels.

All legal documents and the Valuable Document files for HCO and HASI shall be kept by the Department in a proper safe in accordance with previous rules written for the keeping and handling of valuable documents.

All share sales reports and all legal, governmental and corporation reports to be made to the boards shall be made to it by this Department.

No shares may be advertised or issued save with the approval of this department.

No contracts, purchases or mortgages may be undertaken without the approval of this Department and then only by the action of this Department.

It is clearly understood that the Department shall not undertake financial management for the Central Org or HCO nor may it direct the Central Org or HCO on purely Scientology affairs or Scientology dissemination except where these may impinge directly upon the government, and even then this Department is enjoined from forcing government laws or rulings upon the Central Org or HCO by threat of danger or ominous advices, nor may the Department employ either solicitors nor accountants who specialize in ominous advices to the Orgs since the Orgs could be discouraged or impeded by such.

The object of the Department is to broaden the impact of Scientology upon governments and other organizations and is to conduct itself so as to make the name and repute of Scientology better and more *forceful*. Therefore defensive tactics are frowned upon in the department. We are not trying to make the Central Orgs and HCOs "be good". We are trying to make their reach more secure and effective. Only attacks resolve threats.

In the face of danger from Govts or courts there are only two errors one can make: (a) do nothing and (b) defend. The right things to do with any threat are to (1) Find out if we want to play the offered game or not, (2) If not, to derail the offered game with a feint or attack upon the most vulnerable point which can be disclosed in the enemy ranks, (3) Make enough threat or clamor to cause the enemy to quail, (4) Don't try to get any money out of it, (5) Make every attack by us also sell Scientology and (6) Win. If attacked on some vulnerable point by anyone or anything or any organization, always find or manufacture enough threat against them to cause them to sue for peace. Peace is bought with an exchange of advantage, so make the advantage and then settle. Don't ever defend. Always attack. Don't ever do nothing. Unexpected attacks in the rear of the enemy's front ranks work best.

Never put the organization on "wait" because of courts or other matters. It's up to the Department to make the actions of HCO Secs and Org Secs *right*, not enjoin right actions on the HCO and Org Secs.

To win we must have treasure and verve. If a Central Org and HCO function perfectly as service units then treasure and consequent security for the further advance are to hand. If the Department operates with verve and elan, even with rashness, it will afford a screen behind which organizations can work.

Example: BMA attacks Scientology in Australia via the government. Answer: throw heavy communication against the weakest point of the BMA—its individual doctors. Rock them with petitions to have medical laws modified which they are to sign. Couple the BMA attack with any group hated by the government. Attack personally by threats or suits any person signing anything for the BMA. Slam the matter into politics, advance a bill into parliament that strips the BMA of all legal rights by opening healing to all. Make the attack by the BMA look ridiculous. Attack medical practices. Investigate horrible practices loudly. (*Always investigate loudly never quietly.*) Make the distinct public and governmental impression and BMA impression that they've run into a barrage of arrows or electronic cannon and that continued attack by them will cause their own disintegration. As all this is being done on a thought or idea level the restimulation of their engrams results in the total impression that they are surrounded by their own dead and the battery may fire again at any minute. And if one makes in writing not one slanderous or libelous statement, there is no defense by them. This example is patterned on what just happened and what we did in Australia where we are winning strongly.

The personnel of the Department should be freed of past track legal and governmental overts by the HGC using evening auditing. This is a must or the Department will otherwise attract attacks. Further, the higher the department personnel is raised on "control" through running help, the less action will have to be undertaken by it and the more it will actually accomplish without violent action.

The goal of the Department is to bring the government and hostile philosophies or societies into a state of complete compliance with the goals of Scientology. This is done by high level ability to control and in its absence by low level ability to overwhelm. Introvert such agencies. Control such agencies. Scientology is the only game on Earth where everybody wins. There is no overt in bringing good order.

The offices of the Department, so far as is possible, should be so situated as to bring no government traffic into the main avenues, comm lines or halls of the Central

Organization or HCO or so as to divert it to the maximum extent from said avenues, comm lines and halls.

The following personnel appointments are made, conditional to acceptance, as Directors of Government Affairs:

United States:	Marilynn Routsong	Los Angeles:	Dick Steves
South Africa:	Jack Parkhouse	Australia:	Denny Gogerly
London:	George Hay	New Zealand:	Steve Stevens.

In the United States and South Africa the head of the Department of Government Affairs shall be also Trustee or Area Director of the Central Organization while the Org Sec and Assn Sec shall not be, but will be officers of the corporation.

This policy letter and these appointments are prompted by the following facts:

1. My own traffic on government legal affairs is far too heavy and I need help of magnitude on a continental level.
2. HCO Secs and Assn Secs are having difficulty holding down their Orgs and the field because of the time demanded by government affairs.
3. The activity will get heavier rather than lighter.
  - (a) The deterioration of government order is accelerating with consequent confusion in all related affairs;
  - (b) Increasing amounts of order must be maintained by us at a governmental level against the possibility of finding our areas without governments.
4. We are about to file HASI Ltd and HCO Ltd in all areas with the attendant heavy legal and governmental action necessary.
5. We are about to arrange for the release of and the issue of over half a million pounds of shares to the public, thus making heavy demands on legal and government lines.
6. We are about to finance and erect various media of communications, such as radio stations, on the various continents and this will require enormous amounts of liaison and action in such a department.
7. We are about to finance and find new quarters in the United States and such activities come under the new Department.
8. Due to new clearing techniques, our sphere of control is widening. This is purely a case phenomenon, but will be felt heavily by Orgs in the future. It is necessary to provide comm lines for this widening of influence.

Re: Gerald Armstrong  
Your Ref. No. 47-4569

Dear Sir/Madam:

The purpose of this letter is to correct the FD 302 Report of November 4, 1985 prepared by your office, a copy of which is attached hereto and provided for your reference.

Par. 2: I have been in the United States, except for brief trips, since September 1975. I arrived in Boston from Portland, Oregon. I have not resided in Vancouver, B.C. since 1970.

Par. 3: Change "C" organization to "Sea Organization."

Par. 4: Add to the final sentence: "that he knew to be a representative of COS."

Par. 5: The lawsuit was brought by COS in August 1982. My function regarding the biography to be done of L. Ron Hubbard was researcher. The biography was to be written by Omar V. Garrison. The counterclaim was not tried in 1984. COS's suit against me was. The trial ended June 8, 1984 and the decision was issued by the Court on June 20, 1984. The counterclaim is scheduled for trial in September 1986.

Please insure that all agencies or files which received the original report of 11/4/85 are forwarded a copy of these corrections.

Thank you for your attention.

Very truly yours,

Gerald Armstrong
